

WHAT OUR CLIENTS ARE SAYING ABOUT US

Just wanted to thank you so much for the beautiful kitchen! We are so happy with the end result. Thanks for all your efforts and fitting us in to your tight schedule.

Chris & Peter - Bawley Point - October 2016

My many thanks go to you & all your team on a perfect Kitchen. The final results surpassed all my expectations & my whole family are very impressed with the workmanship, service & attention to detail we received from day one!

Lindy - Mollymook Beach - October 2016

We recently completed a full refurbishment of our kitchen, undertaken by Key Kitchens. The process was faultless with no complications. Tom of Key Kitchens was totally professional in his application to the project. The completed product was of the highest quality undertaken by qualified and experienced trades and we could not be more pleased. We have no hesitation in recommending Key Kitchens to those requiring a professional project of the highest quality.

Jan & Gary - Mollymook Beach - October 2016

From the moment Clive arrived at the door to the day we moved into our fabulous kitchen the process was professional and seamless. The operation is seamless in its organisation and appears just so simple (we are sure it isn't). Every change or thought was greeted with acceptance and done with ease. No stone was left unturned to ensure we were minimally disrupted and completely satisfied. Timetables were exact and adhered to. Brilliant organisers, great tradespeople and an outstanding product. Thank you Key Kitchens.

Trish & John - Vincentia - August 2016

I would like to take this opportunity to thank Clive and also the great team of workers that you have employed and my husband and I would recommend you and your team to anybody without hesitation.

Maxine & Bill - Sussex Inlet - July 2016

We are so impressed with the quality and workmanship of the kitchen. The installer has worked really hard all day and is doing an amazing job. We are totally over the moon with how it is looking, thank you so much. We have been telling everyone. I'll send pictures once the splash back is tiled.

Helene & Kevin - Lilli Pilli - April 2016

We can highly recommend Tom and his team for several reasons. Our meetings with Tom and his staff were always pleasant and enjoyable; we had the benefit of Tom's experience and product knowledge. Tom listened carefully and advised well. We appreciated his determination to build a quality kitchen for us at a fair price. His team of tradesmen were competent and courteous. Importantly for us, Tom undertook to complete his work by a specific date and, with careful planning and good supervision, he did that. We can happily recommend Key Kitchens of Ulladulla.

Jane - Mollymook - April 2016

This is a letter of appreciation for a job well done in supplying and installing our new kitchen at Mollymook Beach. Needless to say Tanya and I are both extremely happy with the result and the service from you company and without hesitation be happy to recommend Key Kitchens to others. Thank you again.

Tanya & John - Mollymook - December 2015

I have had dealings with Key Kitchens and their helpful staff over a 20-year period. Key Kitchens successfully and brilliantly renovated both the kitchen and bathroom areas in my 30-year-old coast house at Mollymook. They did a wonderful job modernising both areas, especially given the strictures and limitations of the old house. The new areas really freshened up and modernised the entire house. All the staff are extremely adaptable. Tom Tyquin especially has good listening skills and provides good up-to-date information of what is available. Key Kitchens were able to install a dishwasher post the renovation into the kitchen. The quality of their product is unquestionable. They are also very obliging if there are any further considerations or problems.

I now have a new house which proudly claims a 'Key Kitchen', with which I am delighted. Tom is acutely aware of important spacial aspects and practical suggestions - for instance, with regard to small spaces, cupboard size, saucepan drawers and splashbacks behind the stove. I have no hesitation in recommending Key Kitchens for any or all of your needs. In fact, I have done so to many and several of my friends. They have all been justifiably proud and pleased with the finished product. Words that come to mind in favour of Key Kitchens are: obliging, helpful, cutting edge, stylish, functional, up to the moment: 'a la mode', efficient, reliable, competitive prices.

A very satisfied customer!

Annie - Mollymook - November 2015

Key Kitchens has recently completed a full kitchen removal and rebuild at our residence in Burrill Lake, and we are delighted to report our complete satisfaction with every aspect of the process.

From the very first contact to the final handover we were treated as the client, and every effort was made to meet our requirements. Advice and assistance was freely and professionally offered during the planning consultations, but our needs were always the first consideration.

We were always presented with options, and potential difficult areas were foreseen and accounted for in the planning stages, or without fuss as they arose during construction.

We were impressed with the flexibility of the Key Kitchens team as we made changes during the construction and fit-out stages, and were fortunate to have Jason Brown as our main fitter. He was friendly, conscientious and accurate, and was a fine example of the rest of the Key team.

All trades associated with the project were professional and provided excellent service with first class results.

We are happy to recommend Key Kitchens as a professional, client focussed business that produces outstanding results.

Iris & Cobb - Burrill Lake - October 2015

Our house was in need of a revamp and the main rooms were kitchen, bathroom and laundry. We approached Tom at Key Kitchens and he assisted us in putting together three great spaces. Tom was able

to advise us what worked best for our layout and which products would best suit our lifestyle. He was always available to consult with and we were very pleased with the service provided. We are delighted with the end result and thank Tom and his team for helping put it altogether.

Susan - Mollymook Beach - October 2015

If you are considering getting a new kitchen, definitely go with Key Kitchens - they were great from start to finish. We have more storage space than we thought possible, and the quality of our finished kitchen is top notch. They also have a great product range to choose from, and Tom was very patient and thorough in helping me choose my selections. We highly recommend Key Kitchens!

Sally - Ulladulla - October 2015

I have been a client of Key Kitchens over several years and many jobs. I have approached each job with great confidence that the outcome will be as I would wish it. It is wonderful to have that confidence even before a job starts. Tom has always had good suggestions, asks pertinent questions and has the most up to date materials available. Our most recent job was finished a little more than a month ago and we couldn't be more pleased. It has always been a pleasure working with Tom and his teams.

Aveen - Mollymook - September 2015

Just a quick thank you for the kitchen work. Warwick and I are very pleased with how it all went, your first class tradies and the way you project managed for us - it cannot have been easier given the weather, time schedule and complications.

Susie & Warwick - Mollymook - June 2015

We are both very happy to praise the professional help, attitude and recommendations provided by Tom and his team at Key Kitchens from the first day we met to enquire of renovations to our 50 year old kitchen. The end result is FANTASTIC, the new kitchen including the recommendations offered by Tom has given our old house a new lift. Visitors have been very impressed with the professional input and cabinet fittings that compliment our new fresh kitchen. Greatly appreciated.

Annette & John - Manyana - March 2015

We wanted to provide feedback on our kitchen. You installed our first kitchen 19 years ago - whilst we had Sydney based quotes, we thought the initial dealings with Clive made us feel comfortable to go with Key Kitchens again.

We are absolutely delighted with our new kitchen, but more importantly with the service we received from your team. Starting with Clive, who confirmed he was listening to our needs in so many ways. I cannot think of an additional question he could have asked over our meetings to clarify what we wanted, making suggestions along the way. The level of detail was very thorough.

All the tradesmen who worked on the project were professional and friendly and did a great job. We loved that quality assurance was done along the way and the very few faults were discovered and rectified before we could blink.

There was ample communication before the project and during the work it continued with daily phone calls from Darren to advise, check and gain feedback. And the finished product! We love the kitchen and are very happy to recommend you to others.

Kathy & Mark - Drummoyne - February 2015

My thanks to Tom and the Key Kitchens team for their professional advice, innovative design solutions and quality craftsmanship. The kitchen including glass splashback, bathroom vanities and hallway desk have been expertly crafted from quality materials and seamlessly installed. I am very pleased with the end result and would have no hesitation in recommending Key Kitchens to any prospective clients.

Derek - Ulladulla - February 2015

On behalf of my wife and I, I would like to offer our sincere thanks to you and your team for the magnificent job with the installation of our new kitchen. From the moment we spoke to Clive Grist right through to the completion of the kitchen, we were extremely impressed with the professionalism, workmanship and friendliness of all your staff.

Special mention must be made to Darren for his organisational skills. He was easy to communicate with and went out of his way to please us. He was also aware of my wife's condition and went over and above what would normally be required to have the kitchen completed by Christmas. A special mention is also made to Adrian for displaying professionalism in his duties. Adrian was friendly, courteous and easy to get along with. In fact, everything from the dismantling of the old kitchen to the completion of the new kitchen ran like clockwork.

All the people involved from Clive, the people who delivered the kitchen, the people who installed the Caesar stone bench and all the remaining staff including the Electrician and Plumber we dealt with were always courteous and respectful of our requirements.

My wife loves her kitchen. It has really given her a new lease of life. We certainly would have no hesitation in recommending any prospective clients to you. Once again, thank you and all your staff for the trouble free installation of our kitchen. We wish you and your staff every success for the future.

Mr & Mrs Carrick - Manyana - January 2015

Our entire experience with Key Kitchens couldn't have been better. During Tom's consultations it was obvious that his experience was going to be invaluable to us and our new kitchen. He quietly suggested ideas that were based on years of experience and ideas that we would never have thought of on our own. We listened to him and he listened to us. What evolved was amazing!

Next came the installation - and what a team! Darren was the installation guy and his attention to detail was amazing. The plumber, the electrician, the plasterer were all on time and thorough. A team that would fill anyone with confidence! So happy with the finished product! Would not hesitate to recommend Key Kitchens to anyone.

Bill & Maree - Mollymook - December 2014

We would like to share the pleasure of the planning, installation and finished work with anyone wise enough to have Key Kitchens do the job. The planning was unhurried with time to absorb new ideas that Tom suggested. This led to three attractive features - drawers set in at 45 degrees in the corners, a coffee station with a slide out base for easy refilling of the machine and under cupboard lighting on to the bench top. We had plenty of time to select new appliances which were held in store until they were needed in the installation timetable. We also had the opportunity to choose glass splashbacks in red which certainly added a touch of colour to the off white kitchen. The tradesmen were the best that we have ever known - starting with the installer Adrian and followed by electrician Mark, plumber Glenn and plasterer Phil. They were on time, efficient and happy and their finished work was faultless.

The kitchen now "works" better than it did before and looks great too.

We have no hesitation in recommending Tom and the team to you if you want to experience the pleasure of planning and then enjoying a Key Kitchen.

David & Desalie - Ulladulla - September 2014

My wife and I recently had our kitchen completely renovated by Key Kitchens of Ulladulla. We were always reluctant to commence this project having heard all the horror stories of sub-standard building work and recalcitrant workmen. We also assumed it would condemn us to coping with the inconvenience and disruption of living in the dust and chaos of a building site for an indefinite period as workers slowly went about their business.

After consulting with several companies, we settled on Key Kitchens. Although not the cheapest, we were initially impressed by the obvious commitment and follow-up from our inquiries. Clive, the Key Kitchens consultant, acknowledged and noted our requirements before offering expert, realistic and considered advice as we navigated through what can be a confusion of designs and options. With his assistance, we settled on a design incorporating up-to-the minute features and using materials as he recommended. An air conditioning return system having the potential for disaster if not done correctly, was to be incorporated within the rebuild... this was a challenge that was resolved effortlessly and ultimately successfully. We found all members of The Key Kitchen team that we dealt with to be at all times friendly, courteous, committed and obviously skilled.

Jason was the day-to-day installer and problem solver. We came to depend on him as he dealt effortlessly with any difficulties which inevitably did crop-up with such a major refurbishment. He soon put our initial fears of living on a building site to rest. Each day the team arrived at the correct start time and at day's end, they cleaned and packed up in order to minimise our inconvenience overnight. After various sub-contractors had completed their tasks, we were grateful for a follow-up call from Darren of Key Kitchens to check if we had any issues.

The project was completed in good time and we are delighted with the result. The careful design work coupled with the use of quality materials, a high standard of workmanship and attention to detail resulted in a renovated kitchen that is both functional and looks superb.... it certainly adds value to our home. Accordingly, we have no hesitation in recommending Key Kitchens should you consider a kitchen renovation.

Warren & Yolande - Woolamia - August 2014

When we began major renovations we knew it was really important to get the kitchen and laundry just right.

Key Kitchens gave us good advice and were patient and helpful as we worked through the options for colour, style and design. It helped to visit their terrific showroom.

We couldn't be happier with the quality and value of the finished product.

Donna & Brian - Milton - February 2014

The kitchen is possibly the most important room in a house, it is from here that all sustenance comes. If the kitchen is designed and built correctly the family chef will be very happy and all the members of the household will be happy.

So it is with the kitchen designed and built for us by Key Kitchens. The space allocated to the kitchen in our plan was basically a "Y" shape, very different from that found in almost all other homes. In addition there were some very specific requirements provided by the family chef. This provided Tom Tyquin from Key Kitchens with an opportunity to use his kitchen design skills to ensure that we received the best product available.

Our kitchen has met all our requirements and the enhancement suggested by Tom has meant we now have a fantastic kitchen that is very easy to work with by ensuring that all work areas are separate from one another but within easy access of each other.

The key to our success has been the design process that has allowed us to provide our inputs, have a design developed by Key Kitchens and then for us to review and modify the design until we were completely happy.

Oh, we forgot to mention the workmanship. All doors fit perfectly, all drawers fit and work exactly as expected. All the staff we dealt with were always courteous and professional. All in all we are very happy with our Key Kitchens kitchen.

John & Jeanette - Dolphin Point - December 2013

Ian and I wanted to let you know how pleased we are with our new kitchen. We were very impressed with the skills of your staff and the professional way they went about their work. They notified us of the time they would be coming and they arrived on time. Thank you for your guidance in the planning and measuring for the kitchen and your knowledge of what would be most useful by way of cupboards in the area was very helpful. We also appreciated you following up on each phase of the construction and finishing of the project. We are very happy to recommend the work of the Key Kitchens team to anyone contemplating installing a kitchen. Our best wishes for the future of the business.

Helen & Ian - Milton, NSW - December 2013

We have been using our kitchen for three months and have found it to be a very workable design. The cupboards, drawers and work surfaces are all proving to be very satisfactory and functional. The pine wooden work surfaces are more resilient than we initially had expected and easy to keep clean. However I would point out that the surfaces have been re-oiled 2 or 3 times since installation. All the tradesmen working on the installation of our kitchen were efficient, polite and very careful in ensuring an immaculate finish. We would be happy to recommend your company to any of our friends. Thank you Key Kitchens.

Sue & Colin - Milton, NSW - July 2013

Just a short note to compliment you and your team on a great job in reshaping our large display wall so we could accommodate an enlarged audio/video system. I must say that I was somewhat apprehensive during the installation but the new cabinet fitted perfectly and not only offered us the extra space that we needed, but dramatically improved the appearance of the whole wall unit.

Since the original kitchen and display wall fit-out 14 years ago, we have kept coming back to Key Kitchens to help us enhance the appearance and function of our beach house, including:

- *installation of an enlarged integrated refrigerator*
- *installation of a new kitchen pantry and kitchen drawers*
- *design and installation of new wardrobes in three bedrooms*
- *a clever design and installation of glass panels for the display case to protect display items*
- *a recent total refit of the ensuite bathroom*
- *and finally the above mentioned expansion of the display wall.*

I have no doubt that in the future we will come up with further ideas on how we can improve the appearance and function of the house, and that we will involve Key Kitchens as a matter of choice.

Barbara & Bryce - Bawley Point, NSW - March 2013

WOW - we love our new kitchen, finished in the finest detail with top quality products. Tom and his staff are to be congratulated on their professional service, advice and price. We also had our vanities and laundry carried out by Key Kitchens. We have no hesitation in recommending Tom and the staff at Key Kitchens - very, very satisfied customers.

Lynn and Garth - Ulladulla, NSW - March 2013

Just a letter of appreciation for the fabulous job on our kitchen & laundry at Hyams Beach. As you will remember, the design was altered extensively from the original plans to allow me to have my scullery. You managed to do this with minimum fuss and it works extremely well without compromise to the laundry and bathroom.

Most importantly, everything was completed right on schedule.

As you will see from the photos I have sent, the end result is stunning. The design and choice of materials compliment our new beach house perfectly. Great job and I will highly recommend you to anyone requiring your services.

Laura-Lee - Hyams Beach, NSW - February 2013

Thank you to Key Kitchens for our lovely new kitchen. It was a pleasure working with you from start to finish, so much so that we didn't even bother to get another quote. The added bonus was you were local and the kitchen was in within a few weeks.

Nicky & Grant - Mollymook, NSW - February 2013

We are absolutely delighted with our new kitchen built by Key Kitchens. They executed exactly what we wanted & we were very grateful for their professional advice when our ideas were problematic, & their lateral thinking to achieve what we desired. The range of products is excellent, their knowledge practical & extensive & their professional & efficient work practice make the entire process a pleasure. We really do recommend Tom & his team very highly.

Edgar & Lynne Downes - Mollymook, NSW - December 2012

Just a short note to thank you so much for my new kitchen. Although my house is an old fisherman's cottage the transformation has been well worth it.

Removing the fire place & the recess of the original pantry in preference for drawers was a great idea! I now have a lot more work space in an otherwise small kitchen & the bamboo bench tops & glass splashbacks set it off nicely!

Many thanks for your advice & personal involvement in my project. Please also thank the boys in your team. They did a great job!

Myrna - Burrill Lake, NSW - December 2012

I am writing to express my complete satisfaction with the work done on my house recently by Key Kitchens.

I have only praise for the work done and the way it was organised and carried out under Tom's direction. Key Kitchens had done extensive work for us in a major renovation ten years ago and we had no hesitation in calling on Tom for a quote this year.

To have work done on time and in a thoroughly organised fashion, with excellent workmanship is very important to us and we were satisfied in all aspects.

We recommend Key Kitchens for any work involving kitchens, bathrooms and any other cabinetry.

Aveen - Mollymook, NSW - December 2012

I recently had an extra section added to my kitchen and I was very impressed with the professional way the staff were from Key Kitchens right down to the day of installation. My job would be considered a small job but with the expert advice from Key Kitchens it made a large impact I felt that I was being listened to when explaining what I wanted as Tom added suggestions that would work better for what I wanted. The results were better than what I could have imagined. Everyone who has seen the new

section says that it looks fantastic. If anyone asks me who I would recommend to put a new kitchen in, it would have to be Key Kitchens.

Carol - Ulladulla, NSW - November 2012

I am delighted with the kitchen. The whole process was very satisfying because of the fine quality of the work, the excellent coordination of the input of various tradesmen and the thoughtful, obliging and skilful people who carried out the work. I also really appreciated the fact that I was provided with a clear timetable that was strictly followed. You really have a great team; my thanks and congratulations to them all for a job well done.

Marie - Bawley Point, NSW - November 2012

Thanks very much for the terrific job you did on our new kitchen. We really benefited from your design skills, enabling us to get everything we wanted into a difficult space. Greg and his team were fabulous. He was so careful in getting it all level and square.

You also have a wonderful set of contracted trades professionals. Everyone arrived at the appointed time, and worked together to make the kitchen better than we had even imagined. Very often renovation stories can be nightmares, but thanks to careful planning all seemed to happen effortlessly with absolutely no drama.

In particular I was very impressed with how little adjustments and improvements were made along the way ... it wasn't just a case of slavishly following the plan if a little change would give us more power points etc. Greg also has a good sense of design, and he was very thoughtful about lining up benches, and centring components in the room. Similarly, the tiler did a brilliant job thinking about the centre point of the kitchen, rather than just starting and one end and moving along. Please pass along our thanks to your team.

I have already recommended your work to friends, and can do so with enthusiasm, as I know they would be happy with the result.

Susan & Warwick - Mollymook, NSW - October 2012

The kitchen looks great - just love it !

Thanks for the great suggestions and options on what we could have. I was a bit worried with the Stone benchtop & door colours but it all works really well. The door style is classy & it lifts the level in the Kitchen. I just need to get a tile that will work for the splashback - thanks for the sketches & your help.

Thanks again

Lindy & John - Mollymook, NSW - October 2012

Writing to say a very big Thank You for all the beautiful work you did on our kitchen and bathroom.

When the builder rang to tell me that the kitchen was finished and to come around and see it, I was so nervous that it was almost two weeks before I got there, and when I did I was so stunned I just cried.

Being a chef by trade and always entertaining a lot it was always my dream to have a really workable kitchen in which I could entertain and really get on with the job at the same time - which I can now do.

Very many thanks again Tom to you and your team for all your help, patience, advice and most of all your professionalism.

Madelaine - Milton, NSW - June 2012

A short belated letter of thanks for the refurbishing of my kitchen. For several weeks, since the kitchen was completed, I have been going around in circles, getting accustomed to the changes made. I am particularly pleased with your plans in lowering both ovens and microwave which gives me the extra bench space. Also the cupboards and drawers you suggested are marvellous. (I don't miss my pantry at all). Thanking you again.

Shirley - Ulladulla, NSW - May 2012

Tom - a note to express our appreciation - what a great experience. I originally rang looking only for a benchtop as you will remember. I intended to install a flatpack kitchen into our weekender at Mollymook - thinking that buying it from a major hardware chain would be the most cost effective path. Your immediate interest in my project and your request to "give me a shot at it" was a surprise but I am glad you convinced me.

The key point for us was that you did the measure and design - I wasn't overly worried about doing the install but knowing it was designed to fit in the space including the "problem" corner was a great comfort to us (particularly Amanda, who has great faith in me but knows I'm not a kitchen designer!).

Overall it was an extremely positive experience, we were surprised that the level of service you provided even though I was doing the install, including the "tricks of the trade" over the couple of weekends it took me - it couldn't have been any better.

The quality of your team's workmanship, the design, the ease of construction, particularly the no glue/mortice and tenon means that it looks like a professional job - even if I do say so myself!

Thanks again for your assistance and support we are very happy with the result - other options may have been cheaper, but there is no way I could have made it fit or look as great as our new kitchen does. All the very best wishes for the future.

Paul & Amanda - Mollymook, NSW - May 2012

A quick note to convey our appreciation following the design and installation of our new kitchen.

I must commend you on your selection of your team as they are extremely courteous, helpful and professional.

Your tradespeople were able to for-see and find solutions to issue that transpired - mostly without us being aware that there was a problem. There was no apprehension or complaint - roadblocks were automatically solved and removed. Tom, Your design skills are "second to none". We were struggling with a difficult kitchen area until your expertise came into play.

"Key Kitchens" are everything the name suggests. Please convey our gratitude to your team.

Rod & Eileen - Ulladulla, NSW - April 2012

Today we had a cupboard installed that Key Kitchens made. We were absolutely delighted with the job Greg and Adam did. The cupboard matches the present kitchen perfectly and even though it was only a small job, they took the greatest care. They were meticulous in leveling the cupboard on a rough slate floor, fitting the base around the skirting board and fitting the cupboard along a bulging wall.

Greg and Adam were both very pleasant and cleaned up before they left.

Thank you for a great job.

Don & Julie - Berry, NSW - April 2012

Many thanks for the great job you did for us in providing our new kitchen. Opening the wall between the kitchen and the living area has really improved the usability of our house. We love the streamlined appearance of the 'no handles' feature which increases the available space in our galley kitchen. Your attention to detail and quality workmanship has given us a great kitchen and we are absolutely delighted

with it! A large blind has now been installed over the sink window to complement the galley features, so our lovely kitchen is now finished.

And it is amazing how the laundry has been significantly upgraded just by installing a new cupboard and retiling around the edges.

Pam - Mollymook, NSW - December 2011

Wanted to say THANK YOU for a wonderful job, particularly to Steve, whose work, supervision and advice was tremendous throughout the whole process and very much appreciated. Wishing you and staff a very Merry Christmas and all the best for 2012.

Les & Shannon - Terara, NSW - December 2011

Graham & I would like to say thank you. We are extremely happy with the workmanship re your staff and would like to note that they are a pleasure on the job. Your professionalism has certainly been noted as well and we would recommend Key Kitchens strongly. Thanks again.

Graham & Lorraine - Ulladulla, NSW - September 2011

Many thanks for your assistance with renovating our kitchen. We found Steve to be incredibly knowledgeable, accommodating and persistent with ensuring the finer details, which we really appreciated. We will be more than happy to recommend him to others. Thanks again.

Anna & Gavin - September 2011

Just a quick note to say thank you & let you know how happy we are with our new kitchen. Your company was recommended to us by a friend who is a builder. His statement was "Get other quotes if you want, but don't go with anyone else!"

From the first time we spoke to you in the showroom, we knew our friend was right. Your advice was honest and cost effective.

We removed our old kitchen ourselves (originally installed by a local competitor) and could not believe how shoddy the workmanship was. On the installation day, the care taken by the blokes unloading everything was commendable.

I had a quick look at the way your team had built our cupboards and once again I knew we had made the right decision.

As for Steve your consultant.....what a beaut bloke he is. Nothing was ever a problem for him as he answered fifty million questions from us. He worked with care and dedication that is hard to find these days. He is also an absolute gentleman.

I would be only too happy to recommend you & your team to anyone that is considering a new kitchen. Once again, thanks for everything. We couldn't be happier!

Wayne - Bomaderry, NSW - May 2011

Key Kitchens did an outstanding job with our unusually shaped kitchen.

First they produced a 3 dimensional picture of what they proposed...that really helped. Tom came up with some great suggestions and options on what we could have. And the end result could not have been better...first class job.

Graham - Bawley Point NSW - May 2011

I would just like to thank Key Kitchens for giving us a magnificent new kitchen of my dreams. Tom was exceptional with his ideas, (that I would not of thought of myself that made my kitchen perfect); his ideas were beyond my expectations.

I would also like to thank Jason for his perfection in installing my kitchen and answering all my questions without hesitation. Also all the staff and tradesmen who were all very helpful and accommodating in their roll with my kitchen.

John & Bernie - Burrill Lake NSW - May 2011

Key Kitchens' time and expertise helped plan a well thought out cottage kitchen and laundry design which I am extremely pleased with. The team were fantastic, prompt and professional from design right through to install and no problem proved too difficult for them. They have turned a cheaper end of the market kitchen into a Vogue kitchen in my eyes! I would highly recommend the team at Key Kitchens to my family and friends and will definately be getting them to do my next kitchen renovation. Thank you to Key Kitchens for a fabulous result!

Kellie - Milton, NSW - December 2010

Tom - Once again you have exceeded our expectations with your design for our recent additions to our Bawley home. Of course the product is also excellent. I must also compliment you on the team of tradesmen who installed our furniture. They are very professional and competent and I wonder if you pay them too much (just kidding) since they were always happy and pleasant to deal with while they worked around us. Thanks again for a great job.

Warren - Bawley Point, NSW - November 2010

Key Kitchens removed and replaced an old cupboard and benchtop unit with a larger benchtop, cupboard unit and set of saucepan drawers - all to match an existing kitchen. The job was completed with every attention to detail, which resulted in a very satisfactory product. The service provided was thorough, courteous and reliable. We are very happy with the result.

John & Elizabeth - Mollymook, NSW - November 2010

Just a note to thank you and your team for the new kitchen built in our home at Mollymook. The whole process of replacing our old kitchen with a new Key kitchen was absolutely hassle free. We were treated with total professionalism from all staff and the result is magnificent. We would highly recommend Key Kitchens to all our friends and family. Thank you again for a wonderful job.

Jan - Mollymook, NSW - June 2010

We are writing this letter to thank you and your team for our beautiful new kitchen. Firstly to you Tom for the design and secondly to your team, especially Jason for putting it altogether. From our first meeting we found you to be most professional and courteous and very helpful with ideas and interested in our idea of a cabinet with glass doors that we wanted to incorporate into the kitchen bench. The end result is amazing and we now have a kitchen that has the WOW factor. We only have praise for all at Key Kitchens and would recommend you to anyone looking to do a new kitchen. Again, thank you very much.

John & Lesley - Milton, NSW - March 2010

We're completely delighted with the new kitchen. Nathan (my husband) completed it with the tile splash back. Friends who visited thought it looked great and it really suited the little house. I just wanted to let you know that we will be recommending Key Kitchens to anyone who'll listen.

Larry was great to work with. We were amazed to see the plans (and the job) come through that included all the minute details we discussed and with such friendly service. The kitchen delivery guys

were very friendly. Steve our installer was just lovely and did a beautiful job including tweaking cupboard doors over drawers, and making sure I was happy with shelf heights etc. Also your recommended Tradies, John and Tim the Electricians and David the Plumber were friendly, professional, on time and shockingly clean! Thanks to everyone for a fantastic job. Many thanks and warm regards, Marilyn, Nathan and Rowdie (the Nutter dog).

Marilyn - Myola, NSW - March 2010

I would like to take the opportunity to express my total satisfaction with the design and installation of my new kitchen.

The professional and friendly service provided by Larry and Steve was of the highest level. The kitchen was installed with the minimum of delay and absolutely no fuss.

The re-design from my old kitchen to the much more effective design developed by Larry was excellent. There was absolutely no pressure from Larry for me to make decisions and his assistance was invaluable. Larry made several visits, enabling me to take the time to make informed decisions without rush.

Steve, the installer, was professional in his approach, whilst at the same time very amenable to assisting with some last minute changes that we required. It is obvious that the team of people working with Key Kitchens are of the most competent.

The end quote was very competitive with the other Kitchen manufacturers with whom we spoke, although the other manufacturers did not include the design suggestions that Larry was able to provide. The end result is a much more user friendly design than we previously had.

Once again a great vote of thanks to Steve for his excellent work and very pleasant personality. I would have no objection to this letter being used in any advertising that you choose to run and would be more than happy for prospective customers to contact me for further comment. Thanks again.

Jeannie - Basin View, NSW - December 2009

I want to take this opportunity to thank you & your staff for the manner & timeliness in which my kitchen project was carried out. The design & layout is superb with so much more cupboard space & extra room around the table. I would be more than happy to act as referee for prospective new customers.

Phillip - Manyana Beach, NSW - December 2009

I have been absolutely thrilled with the finished product, the project management & the customer service experience in dealing with Key Kitchens. I would like to personally thank the Key team for the exceptional care, communication & quality in the detail....not to mention, a pleasure to deal with! I could not recommend you more highly & will take every opportunity to do so.

Sandra - Bawley Point, NSW - November 2009

There aren't enough words to describe the incredible job your team has done on my kitchen & laundry, I am still just amazed at the difference! Everyone loves the openness & additional light through the larger window you've installed. Thankyou Key Kitchens ever so much. Wishing you all a happy 2010.

Margaret - Ulladulla, NSW - September 2009

We are writing to let you know how pleased we are with our new kitchen, built and installed by Key Kitchens.

Together with your suggestions and our ideas of what we wanted, we are very happy with the quality, look and finish of our new kitchen. Obvious to us, your team has the experience, as they overcame the challenges they faced in stalling our new kitchen in our old house. Nothing was a trouble. We received excellent, professional service from start to finish. We would have no hesitation at all in recommending Key Kitchens to anyone.

Thank you again, we know we'll enjoy our new kitchen for many years to come.

Ray & Jacqui - Milton, NSW - June 2009

Laurie & I would like to thank you & your staff at Key Kitchens for the outstanding work you have done on our kitchen. We would highly recommend your work to anyone seeking a new kitchen or bathroom vanity. Our home renovations have all come together just nicely!

Nancy & Laurie - Ulladulla, NSW - March 2009

We are extremely happy with our renovation by the Key Kitchens team from the design through to the installation & completion & are very pleased to recommend them!

Fred & Lynn - Sanctuary Point, NSW - November 2008

With Key Kitchens planning and their willingness to comply with our aims it was greatly appreciated. We are extremely happy with the results and have recommended them to two of our friends for their projects.

Bruce & Linda - Bawley Point, NSW - June 2006

We had our kitchen, laundry and vanity units supplied by Key Kitchens and are absolutely thrilled with the results.

Sue & Gary - Narrawallee, NSW - September 2004
